San Says the Spanish Cabinet Has Yielded—Sagasta Reported to Have Said That Some Fresh Incident Might Arise to Block the Treaty.

[ASSOCIATED PRESS NIGHT REPORT.]

WASHINGTON, Nov. 25.—A special meeting of the Cabinet was held at 10 o'clock tonight. All the members were with the President except Secretary Long, who was out of the city. The meeting was called by the President in order that his advisers might consider with him advice which were received this evening from the American Peace Commissioners at Paris. It is expected that the advice related to counter-proposals informally made to the American commissioners by the representatives of the Madrid government.

On the conclusion of the meeting, which lasted only forty minutes and was held in the parlors of the White House, Secretary of State Hay said to a representative of the Associated Press that the President had received some advice from Paris that he desired to lay before the Cabinet, and that he had called the members together to consider them.

The nature of the advice, Secretary Hay declined to discuss, as he said that was a matter which could not be gone into for publication at this time. He added, however, that after considering the dispatch the President had cabled the American commissioners reiterating his former instructions.

It is understood that one point, new in the negotiations thus far, was raised in the dispatches received by the President. It related to a modification of the terms of the proposition submitted to the Spanish commissioners by the American commissioners, but in just what particular the proposed modification was to be made could not be ascertained.

That the proposition was

not accepted was made clear by the President in cabling to the American commissioners a reiteration of his former instructions. The American commissioners will insist that the demands of the United States, as presented to Spain, a few days ago, be considered without modification. That they will be acceded to by the Spanish commissioners is the earnest belief of the members of the Cabinet and the President.

**Spain Has Yielded.**

[BY DIRECT WIRE TO THE TIMES.]

LONDON, Nov. 25.—[Exclusive Dispatch.] A dispatch was sent this evening to the New York Sun from Madrid which says that the Cabinet has agreed to submit to the American demands and that Spain will sign a treaty of peace under reserves. Instructions to this effect have been telegraphed to Senor Montero Rios, president of the Spanish Peace Commission at Paris.

**WHO KNOWS?**

Sagasta Says Some Fresh Incident May Block Peace Treaty.

[ASSOCIATED PRESS DAY REPORT.]

MADRID, Nov. 25.—[By Atlantic Cable.] After visiting the Queen Regent today, in order to condole with Her Majesty on the death of her husband, King Alfonso XIII, who died Nov. 25, 1888, the Ministers met in council. They were occupied exclusively with the consideration of the peace question. Eventually the Ministers unanimously approved the instructions to Senor Montero Rios, president of the Spanish Peace Commission, drawn up by the Foreign and Colonial Ministers, which will be telegraphed to Paris tonight.

While the Cabinet Ministers were most reserved regarding the instructions sent to the Spanish commissioners, it is believed the Philippine question will be settled tonight.

The premier, Senor Sagasta, was asked if Monday's session would see the close of the Paris conference and the signature of the treaty of peace. He replied: "Who knows? Maybe a fresh incident will arise, or further consultations or exchanges of views will arise."

**DON'T CABINET DISAGREED.**

[ASSOCIATED PRESS DAY REPORT.]

MADRID, Nov. 25.—The Liberal today says: "The Cabinet disagreed yesterday as to the reply which should be sent to Senor Montero Rios, but it is believed that the Cabinet will come to an agreement today at its meeting and decide whether it will or will not instruct the Spanish commissioners to sign the treaty of peace."

The American note warmly, and even rudely, rejected arbitration, saying that recourse could only be had to arbitration when two nations found themselves in equal positions and presenting different arguments, but never when it was merely a question of discussing a single question—that of the conqueror.

**SPAIN'S WRIGGLES.**

Exhausting Every Resource to Postpone the Inevitable.

[ASSOCIATED PRESS DAY REPORT.]

PARIS, Nov. 25.—[By Atlantic Cable.] It is now known that Spain will exhaust her time limit, which expires Monday, before replying to the American ultimatum regarding the Philippine Islands. In the mean time the Spaniards are canvassing the entire field and exhausting every resource to postpone the inevitable.

As cabled to the Associated Press Wednesday, they could not accept the American ultimatum without asking if it were really so. That applied to the time limit. Now the Spaniards apparently doubt the fixedness of the ultimatum, and are endeavoring to communicate to the American commissioners asking if the latter would accept a counter-proposition by Spain to cede the Philippines for \$100,000,000.

Spain imagines that the Americans might be willing to top off the great island of Mindanao from the Philippines and pay Spain \$50,000,000 for what would remain, instead of \$200,000,000 now offered for the entire archipelago.

Spain will learn, in response to such inquiry, that the Americans employ the word ultimatum to signify ultimate conditions. However strenuously Spain may seek to increase her money advantage for the cession of the Philippines, she will finally be compelled to know that the United States' offer means \$200,000,000, no more and no less, and that the whole archipelago must pass to the United States for that sum.

Spain, before giving up or turning away, will also propose some alternative bargain on the Caroline or the Canary Islands to be held in the possession of the United States in addition to the Philippines, on condition that Spain be permitted to retain her sovereignty in the Philippines. In other words, Spain would cede certain territory in the Caroline and Canaries and the control of the Philippines to the United States by a nominal Spanish cession, and, as a further inducement, propose that the United States shall pay Spain no money on account of the Philippine Islands.

**Grant C. Gillette Has Come Down.**

**Attachment Suit Filed Against Him in Kansas.**

**Cattle Interests of the Southwest Involved.**

His Liabilities Are Believed to Be Over a Million Dollars—Rose From a Cow Feeder to a Big Stock Owner.

[ASSOCIATED PRESS NIGHT REPORT.]

ABILENE (Kan.), Nov. 25.—A failure involving cattle interests throughout the Southwest was precipitated here today when an attachment suit for \$40,000 was filed against Grant C. Gillette of Woodbine by the Gillespie Commission Company of Kansas City.

Gillette controls thousands of cattle on the southwestern ranges, and his liabilities are believed to be over \$1,000,000.

It is now known that on Monday of the present week Gillette made an assignment and deed of trust of all his holdings to D. W. Nail, Gillette at once departed for Texas. Nail, however, refused to accept the trusteeship, and the papers were not filed.

This condition of affairs, becoming noised about, Gillette's creditors came down upon him in droves. Men representing twenty-five commission firms in Kansas City arrived at Woodbine today on a special train, and immediately began searching for Gillette's cattle, which are ranging over Central and Western Kansas, Oklahoma, Indian Territory and Texas. Some idea of the extent of Gillette's liabilities was gained at the County Register's office here, where fully \$1,000,000 of his paper is recorded. About one-third of it is blanket and unsecured mortgages, while the remainder covers cattle now being fed.

The career of Grant C. Gillette has been of the skyrocket order. He is but 35 years of age, and his operations have startled the more conservative stockmen. Four years ago he lived on a mortgage quarter section of land near Woodbine, where he began his cattle trade by feeding steers for others. In this he was successful, and on the little ranch he laid the groundwork of a business which has enabled him to handle over two hundred thousand cattle within the last three years.

His methods were as novel as they were daring. Soon he seemed to have unlimited credit. He bought great droves of cattle in Texas and brought them north for feeding. Soon he organized his celebrated "cowboy band," composed of plainmen in his employ, and when he rode about the country in his special car he took his band of musicians with him. He even took them into eastern cities, where they attracted much attention.

Gillette is said to have recently taken out \$25,000 life insurance and \$200,000 of accident insurance.

**EXCHANGING NOTES.**

Peace Commissioners Had a Busy Day—Rios's References.

[BY DIRECT WIRE TO THE TIMES.]

SAN FRANCISCO, Nov. 25.—[Exclusive Dispatch.] Several notes have passed today between President Rios of the Spanish commission and President Day of the American commission. Both

commissions have had long sittings, and communications have been flying between them and their governments. Five dispatches have been received from Washington today about this last effort of the Spaniards, who will give, Monday, their answer to the American ultimatum. In his last letter to President Day, President Rios refers to the possibility of cessation of the negotiations, but this is believed to be an empty threat.

**ANIMAL INDUSTRY.**

Dr. Salmon Reports on the Work of His Bureau.

[ASSOCIATED PRESS NIGHT REPORT.]

WASHINGTON, Nov. 25.—Dr. D. E. Salmon, chief of the Bureau of Animal Industry, in his report to the Secretary of Agriculture for the fiscal year ended June 30, 1898, states that during the year most inspection was in operation at 125 abattoirs, as against 128 for the previous year, and in thirty-five cities, as against thirty-three in 1897. The number of animals inspected before slaughter numbered 51,335,398. At the time of slaughter 31,116,833 animals were inspected and 63,662 were rejected, 91,508 carcasses and 48,189 parts of carcasses were condemned.

In connection with the examination of imports from Germany it was found that German toys and colored goods were poisonous and all high-painted German toys may be regarded as very dangerous to children.

The division of pathology has continued the experiment of destroying the ticks which spread the infection of Texas fever, and a substance has been found in which cattle may be immersed without suffering any serious injury, and which will destroy all the ticks on an animal in a single dipping.

In making recommendations for the fiscal year ending June 30, 1900, Dr. Salmon asks that a sufficient appropriation for extending and developing foreign markets for dairy products of the United States be made, and that legislation be sought by which the existing system of government inspection and certification for meats and meat products for export from the United States may be extended (with suitable modifications) to include butter, cheese and condensed milk.

**THOSE VOLATILE FRENCH.**

Forty Girls Injured by a Panic in a Church.

[ASSOCIATED PRESS NIGHT REPORT.]

PARIS, Nov. 25.—[By Atlantic Cable.] There was a very narrow escape today from a repetition of the terrible disaster of the Charity Bazaar fire. While a religious ceremony was in progress in the vestry room, in the Church of St. Germain-des-Près, where many girls from the schools were in attendance, the cinematograph lamps were suddenly extinguished and a fearful panic ensued, everybody instantly recalling the Charity Bazaar fire. The priests finally succeeded in allaying the panic, but no more than forty girls were more or less seriously injured by trampling.

**POSTOFFICES AND PENSIONS.**

WASHINGTON, Nov. 25.—[Exclusive Dispatch.] The name of the postoffice at Clifton, Fresno county, has been changed to Del Rey. Pensions were granted to Californians today as follows: Original, Jerome Seale, Farnersville, \$8; additional, Frederick A. Griffith, Santa Rosa, \$4 to \$8; increase, William W. Campbell, Riverside, \$8 to \$12; original, widows, etc., Margaret Webb, San Simeon. Arizona pensions were granted today as follows: Original, John W. Sefor, Jerome, \$6; Peter R. Dobb, Tempe, \$12.

**LICK HOUSE LEASED.**

SAN FRANCISCO, Nov. 25.—The executors of the Fair estate today leased the Lick House for ten years to George W. Kingsbury. Improvements made by the executors lately in the Lick House have cost \$65,000. The lease is to begin December 1. It is said to be the intention of the executors to follow out the policy of James G. Fair in improving and modernizing the various buildings of the estate.

## DE "KID" WAS THERE

LAVIGNE GETS THE DECISION OVER TOM TRACY.

He Did His Level Best to Make a Chopping-block of His Shifty Australian Opponent.

LATTER RELIED ON JABBING.

MEN GO THE TWENTY ROUNDS IN CLEAN FASHION.

Clear Weather at Lexington Track. Drizzle at New Orleans. "Coffee Cooler" a Winner—Coursing at Stockton.

[ASSOCIATED PRESS NIGHT REPORT.]  
[PAVILION (San Francisco), Nov. 25.—George Lavigne gained the decision over Tom Tracy tonight at the end of a twenty-round fight at 142 pounds or under. The fighting was clever and interesting throughout, but lacked the excitement which usually accompanies a contest between two such opponents of pugilism. Lavigne decidedly did the main work, being aggressive in every round, forcing Tracy about the ring and compelling him to use all his cleverness and shiftness of foot to avoid the little champion's rushes. Tracy did not seem to be at all chagrined over the adverse decision, and took it all good-naturedly.

When the preliminary was called, the pavilion was packed with 6000 people. The preliminary between S. Smith and Joe Bell, lightweights, was stopped by the police in the third round. The contest became a slugfests match, and to avoid possible injury to one of the contestants, the police ordered the referee to stop it. It was declared a draw. At 9:10 o'clock Lavigne entered the ring, accompanied by Bill Lavigne, "Young Mitchell" and Tim McGrath. Tracy followed quickly with his seconds, Al Smith, Dewitt Vanocourt and Walker. The men stripped in good condition, Lavigne weighing about 136 pounds and Tracy 142. Lavigne looked a little stouter than usual, but was apparently in the pink of condition. Jim McDonald, the National League umpire, was introduced as referee. Time was called at 9:24 o'clock.

First round.—The men agreed to break clean and not strike in clinches. The men fiddled for some time, with Lavigne forcing Tracy about the ring. Lavigne led first and reached the neck with the left. He tried several hard left chops for the face, all of which were blocked. Tracy countering with a couple of good body punches and a left jab, which left its mark on Lavigne's eye.

Second round.—Lavigne kept after his man, but the shifty Australian kept out of reach. Lavigne led for the body. Tracy drew back and came in hard on the stomach with his left, which was the best blow landed so far.

Third round.—Tracy sent in a couple of jabs on the face, which only served to make Lavigne laugh and come back with a rush. No effective work was done in this round.

Fourth round.—Tracy's wonderful quickness of foot kept him beyond the range of most of Lavigne's left chops and swings, while Lavigne's face showed red marks from Tom's left jabs, which his superior reach enabled him to land.

Fifth round.—Tracy jabbed his left hand on the face, but George countered with a right on the head. Lavigne swung a hard left for the body, which made Tracy wince. Tracy seemed a little tired from his continued avoidance of Lavigne's rushes.

Sixth and seventh rounds.—These were repetitions of those preceding. Lavigne rushing and leading frequently with his left for the body and head. Tracy avoided, but succeeded in breaking the force of almost all these blows.

Eighth and ninth rounds.—These were slightly in Lavigne's favor. His persistent chopping and swinging, leaving the skin on Tracy's body and neck a ruddy hue. Tracy contented himself with countering with his left on George's face and neck.

Tenth round.—Tracy stood his ground better, and paid the "Kid" back in kind. It was the best fighting up to this stage, being an even thing.

Eleventh round.—This round was Lavigne's round. He sent in a terrible left on the stomach which caused Tracy's ever-ready body to gasp for air. Lavigne had the advantage at this point of the fight.

Twelfth and thirteenth rounds.—These were Lavigne's rounds by a shade, though not really effective work was done. It looked at this stage as if it would go the limit and Lavigne would get the decision on account of his aggressive and more effective work.

Fourteenth and fifteenth rounds.—These also were Lavigne's, although Tracy made several determined stands, stalling off George's rushes, but always getting a little the worst of the mixes. Tracy tried several times to reach Lavigne's jaw with his right, but failed to connect.

Sixteenth, seventeenth and eighteenth rounds.—Lavigne held his lead, with a little more added, during these rounds, using his right on Tracy's body with perceptible distress to the latter. Tracy seemed the weaker of the two, and resorted to purely defensive tactics.

Nineteenth round.—Tracy started in to force matters, and kept Lavigne guessing for some time. He jabbed George's mouth several times, to which Lavigne responded with left swings for the body.

Twentieth round.—The men fought carefully in the last round, neither taking chances. Referee McDonald promptly gave the decision to Lavigne, which was satisfactory to the crowd.

BETS FAVORED LAVIGNE.  
[ASSOCIATED PRESS DAY REPORT.]  
SAN FRANCISCO, Nov. 25.—Sporting men throughout the country were interested in this event, as both fighters are top-notchers in their class. Lavigne was the only world's champion who, during his career as a fighter, has never met defeat. Tracy has fought the best men in the country, and has the reputation of being the cleverest and most tricky boxer in the business.

Notwithstanding Lavigne's well-known ability as a fighter, there are many ring-goers who liked the Australian's chances enough to place their money on him. Many eastern betting men sent out large money orders to Harry Corbett to place on Tracy. Lavigne, too, had many strong supporters in the East. There was a large advance sale of seats.

The early betting was in favor of Lavigne at odds of 10 to 8, with a medium business being done. The Lavigne money continued to be a little more plentiful than the Tracy coin. The mutuals were nearly even down the line on Lavigne, but most of these on Tracy were for him to get the de-

cision or win in the second half of the battle.

"COFFEE COOLER" WON.

The American's Tactics Were a Puzzle to the Englishmen.  
[ASSOCIATED PRESS NIGHT REPORT.]  
NEWCASTLE-ON-TYNE, Nov. 25.—[By Atlantic Cable.] In a twenty-round contest here this evening for a purse of £1500 between Frank M. Craig, "the Harlem Coffee Cooler," and George Crisp of Newcastle, Craig won in the thirteenth round. In the betting Craig was the favorite at 2 to 1. The men were fairly even in the opening round of the bout, but before the sixth round was over the "Coffee Cooler" had Crisp in difficulties, the Newcastle man being greatly puzzled by the American's tactics.

Crisp recovered somewhat during the ninth round, and the fight was for a time more even. In the thirteenth round Craig got a left home heavily on the jaw and sent Crisp to the ground, where he was counted out. Craig showed no signs of punishment.

YACHT SHAMROCK.

German Nickel-steel Plates and Aluminum to Be Used.

[ASSOCIATED PRESS NIGHT REPORT.]  
GLASGOW, Nov. 25.—[By Atlantic Cable.] The work of constructing the yacht Shamrock for Sir Thomas Lipton, the challenger for the America's cup, will be commenced during the coming week.

William Fife, the naval architect, who is to build the racer, has invited a firm of Essen, Germany, to supply light-weight nickel-steel plates for that portion of the vessel's hull below and aft of the water line. It is believed that aluminum will be used for the upper part of the hull and for the yacht's fittings.

WRIGHT OF BROWN.

Winner of the Individual Cross Country Championship.

[A. P. EARLY MORNING REPORT.]

NEW YORK, Nov. 25.—A. L. Wright of Brown University, and the New York Athletic Club, has won the individual Cross Country championship of America in one of the bleakest storms that ever swept the Morris Park course, leaving the champion, George Orton far in the rear. The team championship was captured by the New York Athletic Club, with a score of 34 points. Yale second, 65 points; to Cornell's 68. The individual race was six miles and a half.

George Orton assumed the lead and led a merry clip the first mile, closely followed by Sweet and Yeatman. Of Cornell, Bray of the New York Athletic Club, and Adams of Yale.

The second lap found Wright in front, Orton trailing along sixth. During the lap Wright increased his lead to 15 yards. Orton made a desperate attempt to regain the lead in the last lap, but Wright drew further away. Orton managed to overtake Sweet and Bray of Cornell, but they finished a good distance ahead of him. Wright won by fully 150 yards over Bray. Out of 48 starters 32 managed to finish. Wright's time over the course, 38:35, compares favorably, considering the weather, with Orton's best time, 35:41, last year.

Racing at Ingleside.

SAN FRANCISCO, Nov. 25.—The weather at Ingleside was fine and the track slow.

Five furlongs: Almyer, 116 (H. Martin), 2 to 5; won; Reina de Cuba, 108 (Jones), 60 to 1, second; Midlove, 118 (Thorpe), 11 to 5, third; time 1:01 3/4. Favorite also ran.

One mile: Potente, 103 (H. Martin), 9 to 5; won; Biss Rucker, 106 (Thorpe), 8 to 5; second; McFarlane, 112 (Powell), 6 to 1, third; time 1:44 1/2. Beau Gruffy, Cavallo, Ballvers, Fleming and Eureka also ran.

One mile and a half, selling: Red Glenn, 107 (Bulman), 6 to 1; won; Benamela, 107 (Butter), 6 to 1; second; Bernardillo, 107 (Jones), 7 to 1, third; time 2:56 1/2. Urm, Judge Wofford and Orabie also ran.

Six furlongs, selling: Outaway, 107 (Thorpe), 6 to 1; won; Mainstay, 107 (H. Martin), 8 to 1; second; Jonath, 104 (Frawley), 60 to 1, third; time 1:35 1/2. Captive and Whitcomb also ran. Kaler Ludwig left.

Five furlongs: Miss Rowena, 114 (Pigott), 9 to 10; won; Mary Black, 114 (L. Reiff), 8 to 5; second; Hugh Paine, 114 (Thorpe), 5 to 1, third; time 1:00 3/4. Lelthart also ran.

Seven furlongs, selling: Step About, 110 (H. Martin), 8 to 5; won; Torbio, 100 (Frawley), 5 to 1, second; Imperious, 100 (Ward), 3 to 1, third; time 1:29 1/2. Inverary II, Little Alarm, Hohenlohe, Bonnie Lone and Col. Dan also ran.

Lexington Finishes.

LEXINGTON (Ky.), Nov. 25.—The weather was clear and track heavy.

Six furlongs: Box Jock heavy. Bell second, Aspla third; time 1:20 1/2. Five and a half furlongs: Rose Ash won, Asmen second, Mayme M. M. third; time 1:14.

[ASSOCIATED PRESS NIGHT REPORT.]

NEW YORK, Nov. 25.—Gen. Shafter was the principal guest tonight at a banquet given at Delmonico's by the Sons of the Revolution of the State of New York. In the course of a speech he said:

"I wish to say something about the late war, about the success in Cuba. I suppose you all know how that campaign has been criticized. I want to tell you that it is much easier for a man to say how a thing should be done than to do it. Shafter then detailed the preparations for the Cuban campaign, and the embarkation for Santiago. He continued:

"War was declared in April in the beginning of the sickly season in Cuba. It was the expressed intention of the President, and he told me so himself, to delay the war until after that season, no matter what the public clamor was. He would not send volunteers into Cuba during the sickly season." After referring to the conditions which made earlier movement necessary, Gen. Shafter told of the embarkation at Tampa, of his arrival at Santiago, and said:

"I will say right here that there was no strategy employed. I learned of a considerable body of Spanish troops in and about Santiago, which in round numbers I will place at 21,000. I knew we would have some sickness, and I determined to make a sharp and forced march straight to Santiago. I had 20,125 men, all of the light artillery and all of the available cavalry. There were three regiments of volunteers, one composed of cowboys, who, while they lacked in the discipline of the regulars, were inured by past lives to hardships and did good work. There were also the Seventy-first New York, and the Second Massachusetts. They were good regiments, and did their duty well. [Applause.] There is not a regiment in the volunteers of the earth of the earth who could be made soldiers in the short time and training that these regiments had. Of course, we did not carry comfortable homes with us. Every man had three days' rations. All the generals, except Gen. Wheeler, went on foot with their packs and their rations, like privates."

Gen. Shafter then described the various marches, and continued:

"I was determined to reach Santiago before the sickness came upon the men. I knew that the surrender of Santiago was only a question of a few days. I was told by the British Consul that the town was ours when we arrived at the brow of the hill. There was much clamor for me to assault the town. I had to exercise the greatest effort to withstand it."

Gen. Shafter closed with a tribute to the Sons of the Revolution and sat down. He was then introduced by Henry Van Dyke, D.D., who introduced and created a sensation by vehemently denouncing the policy of expansion. He declared that the purpose for which we went to war were freedom for Cuba, and the cause of humanity, and not for the aggrandizement of territory.

Rev. Dwight Galloupe Gallops Over the Rough Rider's Testimony.

[ASSOCIATED PRESS DAY REPORT.]

NEW YORK, Nov. 25.—The Rev. Dwight Galloupe of Jersey City, who went to the front as chaplain of the Ninth United States Infantry, testified before the war investigating commission today. He told of the condition of the regiment at Tampa, of the voyage to Cuba, and of the work of the regiment at the front.

"Col. Roosevelt," he said, "testified that his regiment had some difficulty in finding a transport to Santiago, and that great confusion prevailed at Tampa. I saw no confusion, and the only delay to my regiment was one of one and one-half hours caused by the jamming of a gang plank. All our men landed in Cuba in splendid condition. There was no sickness aboard, and I attribute their fine physical condition to the discipline maintained. I made to exercise on deck every day."

Rev. Galloupe said there was no hardship in sleeping in the open air in Cuba. The air was warm and the ground was dry sand. He slept several nights in the open air from choice, and he heard no complaints from any of the men. He described at length the preparations made for the reception of the sick after the Santiago battle, and said the stories of neglect and lack of accommodations had been grossly exaggerated.

ANNISTON ASSASSINS.

Gen. Frank Begins the Work of Persecuting Them Out.

[ASSOCIATED PRESS DAY REPORT.]

ANNISTON (Ala.), Nov. 25.—The city has quieted down after last night's rioting, and it is believed that the full extent of the shooting has been learned. Two negro soldiers were killed and three wounded, and six or eight white enlisted men were more or less seriously hurt. The two members of the white provost guard, who were missing last night, reported for duty today.

The dead are:

PRIVATE ED CAPERTON, Third

Alabama, unidentified members of the same regiment.

Wounded:

WILLIAM BOWIE, Third Alabama, shot through the body; will die.

The names of the other wounded negroes will not be known until night, as the commander of the regiment has not made up the list. Among the whites wounded were:

PRIVATE GILBERT, Co. B, Second

Arkansas, shot in head and stabbed in back; wounds dangerous.

SERGEANT FRANK DODSON, Third

Tennessee, shot in arm.

PRIVATE JACK GRAHAM, Third

Tennessee, shot in stomach.

PRIVATE WILL BISSON, Fourth

Kentucky, shot in shoulder.

It is reported that several members of the Fourth Kentucky and Fourth Wisconsin were wounded, but this could not be confirmed at their headquarters. Gen. Frank, commanding at Camp Shipp, has instituted an investigation.

At yesterday's session of the Phi Delta Theta Convention at Columbus, O., Dr. J. Edward Brown of Columbus was unanimously elected president, but declined, and nominated J. ## LET US CELEBRATE.

Now that work has in fact been begun on the deep-water harbor at San Pedro, and it has been decided that we shall have a celebration in honor of the event, let us make the occasion an unqualified success in every particular. Let us not do things by halves in this important matter, but let us commemorate the beginning of the harbor work in a manner befitting its importance, not alone to Southern California, but to the entire Pacific Slope, and to the nation at large.

Every section in Southern California should be invited to send representatives to the harbor jubilee. Arizona, Utah, and all our commercial connections should also be invited to send representatives—the more the merrier. Our brethren in the northern part of the State should not be forgotten. In fact, all friends and well-wishers of the State, should be invited to join us in the celebration of an event which means so much to this entire coast, and especially to the imperial domain of Southern California.

While the representatives of all these sections having in some degree a mutual interest are assembled here to join us in a general jubilation, it would be an excellent idea to combine business with pleasure by organizing an association to be known, let us say, as the Southwestern Commercial Congress. The organization might be effected and maintained on a plan similar to that of the Transmississippi Congress and other kindred organizations. Its object, of course, would be to promote the interests of that vast region comprising the Southwestern States and Territories of the United States. Such an organization might be of incalculable benefit to this section, in various ways which need not here be specified. Questions of supreme importance to the Southwest are constantly coming up. These questions, in many cases, cannot be adequately treated by local associations nor by individuals. An association such as is contemplated could treat them in a broad, systematic, and effective manner, which would insure their proper consideration by the national government, if such consideration were necessary, and hastening their successful solution.

By all means, then, let the Southwestern Commercial Congress be organized. Let it be placed upon a practical, substantial basis from the beginning. Let its officers be composed of men who are able and willing to devote all the time that is necessary to the promotion of the enterprise, and who are well known throughout the Southwest as men of push, energy, and practical business ability. Under such auspices the association would be a pronounced success from its inception, and would be able to accomplish untold good for this vast empire of the Southwest, the resources and the wealth of which we have as yet hardly begun to develop.

The matter of the Board of Education is something to which, many times, too little attention is given by nominating conventions, but the city ticket for the board put up by the Republicans for the campaign now upon us is of exceptional quality and deserves the especial consideration of voters. Among the other first-class men in nomination for membership in the Board of Education is J. W. Hendrick in the Ninth Ward. Mr. Hendrick is a gentleman of spotless reputation, of high character as a lawyer, and of surpassing fitness for the position, from all points of view. The education of our children demands the best thought and the most painstaking care on the part of those who are to conduct our schools. We may be sure that if such men as Mr. Hendrick are elected we will be disgraced by no more Walter Webb scandals, but that economy and efficiency will be demanded in all departments of our local educational system. The Ninth Ward should redeem itself from Webbism by electing Mr. Hendrick by an overwhelming majority.

Spain may not accept that \$20,000,000, but we'd like to see somebody offer it to Weyler and watch him grab it.

## THE GAIL FERGUSON FUND.

The effort to secure a home for the mother and little sister of Gail Ferguson, the dead soldier boy of the Seventh Regiment, has not been abandoned or forgotten, as will be seen by the following letter, under date of November 24, from A. Q. St. George of Pico Heights, who writes:

"To the Editor of The Times: My good wife and I prefer to give our 50 cents, which I now enclose, toward the purchase of a home for the mother and sister of Soldier Gail Ferguson, than to spend it for tickets to see the exhibition drill of the Seventh Regiment, the proceeds of which go to the benefit of a soldier's monument. The raising of a monument in this cause is a noble one. But of two good things, choose the best."

"I sincerely hope that the committee in charge of the funds from the exhibition drill will see fit to donate a portion of today's proceeds to the fund started to purchase a home for Gail Ferguson's mother and sister. All honor to the dead, but let us never forget the bereaved widowed mother and orphans of the deceased soldier boys. Their comfort should be to us the grandest and proudest of all monuments."

THE TIMES cordially echoes the above sentiments and hopes there may be such disposition made of a portion of the fund secured on Thanksgiving day as will serve to insure the purchase of a comfortable home for this worthy mother of a brave lad, who died for his country, and her fatherless daughters and little son.

Acknowledgement of contributions to the fund are made as follows:

J. R. Newberry ..... \$25.00  
A Friend ..... 2.00  
A. Q. St. George ..... .50  
Previously reported ..... 369.20

Total ..... \$396.70

The fund is still open and further offerings will be thankfully received and duly acknowledged in these columns.

## THE B-HOY IN POLITICS.

A few weeks prior to the recent election word was passed along the line to the effect that it would be necessary to "turn down THE TIMES," defeat R. J. Waters for Congress, and elect George L. Arnold a member of the State Board of Equalization, or "the boys wouldn't get anything." By which was meant that the machine politicians, "the push," the petty bosses, the ward heelers, and political mendicants generally, would fare exceedingly slim in the event of Waters's election, the defeat of Arnold, and the vindication of THE TIMES in its opposition to Arnold and to political bossism in general.

If the b-boys were depending entirely upon the above-named contingencies for recognition, they are not likely to get much comfort out of the election. For Mr. Waters was elected by a magnificent majority, Arnold was ingloriously defeated. The "gang" received a rebuke in the defeat of Arnold and of Morrison, and in the splendid triumph of Waters and the Republican ticket generally, which its members should not be quick to forget.

The results of the election go to show this: that the people are weary with the attempts of politicians-for-revenue-only to control the actions and influence the votes of political parties. Conscientious voters of all parties are at last coming to a realization of the fact that we must have good men for office at all hazards, whether they are favorites of "the boys" or otherwise. Men who are in politics solely for what they can get out of it are very apt to betray the cause which they espouse, by showing too much zeal in its behalf. For the people, when convinced that certain candidates are the especial favorites of "the push," are almost sure to turn down those candidates.

The thinking people of the country are beginning to take a hand in politics. The moral and material influence of the independent voter is growing stronger year by year. He decides the fate of this or that candidate, and of this or that political party, at his pleasure. Professional politicians fear the independent voter with about the same degree of wholesome intensity as the proverbial fear of the devil for holy water. The strength of the independent voter is an unknown and an unknowable quantity. It cannot be weighed, measured, nor otherwise computed with any degree of accuracy. He delivers his blows, oftentimes, where they are least expected, and he is a hard hitter.

We have had altogether too much of gang politics in California. Intelligent and conscientious voters have become thoroughly disgusted with all political methods, which savor of politics-for-revenue-only. The machine politician is without honor in his own country, and his days are numbered. All of which is as it should be.

There is spirited work being done by the Republican City Committee and the candidates of that party, which gives promise of a sure victory on December 5. The fusionists are making contemptible fights on some of the candidates, particularly Herman Silver, candidate for Council in the Fourth Ward, and John Drain, candidate for Superintendent of Streets and the incumbent of that office, but such tactics will not defeat good men, and both these candidates have proven themselves in every way worthy of a reelection to their respective positions. Fred Eaton is working like a Trojan and making votes every day by his frank manliness and by his straightforward talks to the voters of the city. Selom has a ticket been put in the field so strong in all its parts as the one nominated by the recent Republican convention and possessing, as it does,

the confidence of the community. It is out for just such a winning as the Republican county ticket made on the recent occasion which was so painful to the opposition.

Under the new charter, the present arbitrary power which the members of the Board of Education may exercise over the teachers, will no longer exist. All teachers in the department at the present time, or hereafter employed, are presumed to be retained in the employ of the department until discharged for cause. The causes for removal are insubordination, immoral or unprofessional conduct, evident unfitness for teaching, or failure to maintain the standard of excellence in the work which the requirements of the schools demand. Teachers shall have notice of unsatisfactory work, and reasonable opportunity given them to correct faults. They are thus no longer compelled to curry favor with politicians, with the members of the board, or with anyone else in order to retain employment.

A weather prophet, in a country paper of Southern California, assures us that the chances are forty-seven to one in favor of a good rainfall this season. On the other hand, the San Bernardino correspondent of the Herald declares that the prospects are ten to one that this will be a season of light rainfall. So there you are. You "pays your money and takes your choice." The probability is, however, that neither of these individuals knows much more about the intentions of Jupiter Pluvius than does the ordinary citizen.

It is now expected that the Rapido will sail for Spain from Havana with the ashes of Columbus, on December 8, stopping at Martinique and the Cape Verde Islands, where honors will be paid to the remains of the late lamented discoverer. After the Spaniards have asked a few more times whether we really mean it, they may be expected to come down gracefully.

There was something of a turkey encore yesterday; but the deceased bird was either cold, or hashed, as a general proposition.

Even if Corbett did lost that fight he has a very juicy "415 in his inside pocket" from the gate receipts, Smoothy Jim!

As a "campaign of education" the American campaign against Spain has undoubtedly been one of the greatest in all history.

A vote for the new charter is a vote to put Los Angeles in line with the progressive cities of America.

Thank goodness we had a chance to get at that turkey before the carcass got blown full of sand.

Not all the hotel-fire traps in the country were consumed when the Baldwin burned down.

Rah! Rah! Rah! Stanford—niti! U.C. that U.C.'s it!

## WHEN THE REGIMENT IS PAID.

When you're waiting for a pay day, don't it strange how you will plan?

Why, the first of them looking forward to getting a man, and the second to get a man, and the third to get a man, and the fourth to get a man, and the fifth to get a man, and the sixth to get a man, and the seventh to get a man, and the eighth to get a man, and the ninth to get a man, and the tenth to get a man, and the eleventh to get a man, and the twelfth to get a man, and the thirteenth to Thermometer for the corresponding hours showed 58 deg. and 67 deg. Relative humidity, 5 a.m., 24 per cent.; 5 p.m., 16 per cent. Wind, 5 a.m., northeast, velocity 12 miles; 5 p.m., northeast, velocity 12 miles. Maximum temperature, 71 deg.; minimum temperature, 55 deg. Barometer reduced to sea level.

## DRY BULB TEMPERATURE.

Los Angeles ..... 58 San Francisco ..... 50  
San Diego ..... 54 Portland ..... 32  
Weather Conditions.—The pressure is abnormally high from the Missouri Valley to the Pacific Coast north of the 38th parallel, and is highest in Nevada, Idaho and Utah. The gradients diminish with marked steepness toward Southern California, where the pressure is low, causing high northerly winds. Cool weather prevails in the interior of California and frost occurred this morning in the San Joaquin and Sacramento Valleys. Cold weather continues east of the mountains. Zero temperature prevails in the Upper Missouri Valley.

Forecast.—Local forecast for Los Angeles and vicinity: Fair tonight and Saturday; cooler tonight; frost in low ground.  
SAN FRANCISCO, Nov. 25.—For Southern California: Fair Saturday; fresh northerly wind.

## ALL ALONG THE LINE.

The weather of the last two days seems to indicate that the winds which are supposed to have their home in Santa Ana have accepted the policy of expansion and annexation of territory.

The aristocrats of San Diego who are wealthy enough to keep horses have again been called upon to pay \$2 a ton more for their hay. The horse that is permitted to live with hay at \$2 a ton ought to be a grateful creature.

When burglars are bold enough to smash in the front door of a residence but little removed from the heart of the city, on a prominent street, before bedtime, and light up the whole house while they ransack it, there is at least pretty good evidence that they have little fear of the police.

The San Pedro Chamber of Commerce evinces an appreciation of the future that is in store for that place. Its address to the citizens concerning the improvements there is both wise and timely. The voters should be ready to endorse the movement for the issue of bonds, that the improvements may be made before the town is handicapped for want of them.

There is no necessity for serious alarm because of the fact that two soldiers of the Seventh Regiment are afflicted with diphtheria. These cases seem to have been discovered and isolated in time to prevent danger of contagion from them, both are reported to be mild in character, and strict watch is being kept for the first indications of any other possible cases; hence nothing like an epidemic is likely to follow.

And now the word comes that the battleship Wisconsin will be christened with neither California wine nor Milwaukee beer, but with wine imported from Europe. Since the ship was constructed in this, a wine-producing State, the choice of the foreign article shows, to say the least, a surprising lack of appreciation of the properties of the occasion. California champagne may not rank the highest of any in the world, but it certainly is good enough to christen an American ship with.

Those who defend the present shipment to the East of oranges from Southern California on the ground that there is a demand for early fruit, and that big prices are offered, are not arguing to the point. The objection is not to early shipment, but to the shipment of green fruit. No one can object to the shipment of ripe fruit at any time, but green fruit should not be sent east at any time, and the fruit that is going forward now is undoubtedly so green that it will be unfit for the market on its arrival, and will result in injury to the reputation of California oranges all through the season.

## SEVENTH REGIMENT BENEFIT.

Monument Fund Swelled to a Portly Figure.

The Thanksgiving-day benefit drill of the Seventh Regiment was a great financial success. Already a great sum has been deposited to the account of the monument fund, and it is certain that this amount will be materially increased. The tickets sold by teachers and principals to the children have not yet been accounted for. Several stores which disposed of tickets have not yet made their reports. The Chamber of Commerce, under whose auspices the drill was conducted, feels highly gratified at its success and at the spirit in which the regiment entered into the enterprise.

Corp. Graham and Privates Samuelson and Thompson are the three ticket-sellers who met with the most conspicuous success. The three together disposed of \$385 worth of tickets. The routes originally given them were about the worst assigned to any of the soldiers.

The turnstiles at the fair grounds, which automatically registered the number of visitors passing through, recorded 5124 people. Over 200 teams drove through the horse gate and a large number of people on foot passed through the same entrance, the total number being estimated at 2000.

## RED CROSS BOX RIFLED.

Considerably Left at the Threshold of Headquarters.

A Red Cross donation box, broken open, its contents pilfered, the lock missing, was found yesterday morning on the threshold of the Red Cross headquarters.

The box was identified as one which had been placed in the Capitol saloon at the corner of Third and Main streets. There is no way of telling how much was stolen. The box had never been opened. Other boxes opened have been found to contain sums ranging from the way from \$5 to 4 cents, the latter sum having been taken from the box in the Burbank saloon.

## GENEROUS CHILDREN.

THANKSGIVING OFFERING TO THE DESERVING POOR.

Capt. Frazier of the Good Samaritan the Medium Through Which the Donations Are Received and Distributed Twenty-six Tons Contributed This Year.

Capt. J. A. Frazier of the Good Samaritan, and his assistants, are busily engaged in assorting and delivering the annual Thanksgiving offerings of the school children of Los Angeles to the poor and needy.

Few people realize the magnitude of this work and the great good accomplished through the generosity of the children who attend the fifty-three public schools of Los Angeles. Prof. Foshay has always taken a deep interest in the laudable efforts of the children to distress the unfortunate, and has been of great assistance to Capt. Frazier in keeping up the good work.

On the day before Thanksgiving the school children take or send their donations to the particular school which they attend. Capt. Frazier then has the contributions removed to the general headquarters of the Good Samaritan, at No. 648 South Los Angeles street, and then distributed to the needy. This year the contributions of the children amounted to about twenty-six tons, and included everything imaginable in the way of food, wearing apparel, toys, etc. This year the Los Angeles Transfer Company did the hauling, free of charge, from all the schools, except four, to the Good Samaritan headquarters. The door space at the regular headquarters was inadequate to accommodate the immense amount of contributions, so Herman Kerckhoff tendered to Capt. Frazier the use of the store room at the northwest corner of Los Angeles and Seventh streets.

On Thanksgiving day Capt. Frazier distributed provisions to 300 families, representing 800 people, mostly children and women. Mrs. Marcoux, matron of the King's Daughters' Rescue Home, is assisting Capt. Frazier in the handling of the Thanksgiving contribution. The various benevolent and charitable institutions will each receive an equal share, and the balance will then be distributed to private families. Yesterday Mrs. Marcoux, with six assistants, was busy assorting and dividing the great quantities of groceries, canned fruit, potatoes, clothing, shoes, books, toys, etc.

Today the various charitable institutions will send to the headquarters and get their share of the supplies, after which Capt. Frazier will continue the distribution to private families. This sort of relief work, outside of the regular Thanksgiving offering of the school children, is carried on during the entire year through Capt. Frazier. He receives an enormous amount of food, clothing, etc., from merchants, hotels, bakeries, commission men and private individuals, which is distributed to the deserving poor. Every case of distress reported to the captain is investigated by Miss Sturges, the regular field worker. Capt. Frazier and Miss Sturges are continually on the alert for new cases requiring their attention, and they are familiar with almost every family of deserving poor in the city. It requires considerable investigation, sometimes, to prevent being imposed upon, as they come in contact quite often with people who would rather live on charity than to work for a living.

## SICK SOLDIERS.

A Case of Measles and Two Typhoid Suspects.

William Rennes of Santa Ana, a member of Co. L, Seventh Regiment, was sent to the County Hospital yesterday afternoon from Camp Pratt, suffering from a mild attack of the measles.

There are two suspect cases of typhoid at camp, which are being closely watched. As yet the symptoms are uncertain, but if typhoid develops the men will be hurried to the County Hospital and isolated.

The two diphtheria subjects from Camp Pratt, who are under the care of Dr. McGarry at the County Hospital, are doing comparatively well. Last night Maj. Choate detailed Dan Thompson of Co. A to nurse them.

## ENTHUSIASTIC MEETING.

Colored Republicans Turn Out in Force—Speech by John Drain.

A spirited meeting was held last night at the United Republican Club, No. 151 North Los Angeles street. A number of the Republican city candidates were present. A. L. Tilton presided, and introduced John H. Drain, who made a brief speech. Mr. Drain was enthusiastically received. The members of the club were out in full force. Speeches were made in the interest of the various candidates. The club will hold regular meetings each evening from now until election.

This is the largest organization of the kind among colored men in Southern California.

## THE LATEST FINEST FURNISHING.

Goods Store in Los Angeles.

## "WHY IS IT?"

Thundered a disgruntled competitor, as he knocked the cobwebs off a pile of goods and fired the duster at a cash boy who was trying to make his mouth a size larger with a glove stretcher. "That people don't seem to read our ads, and I spend half my time trying to make them attractive?"

"Why don't you write them in the 'Silverwood' style?" suggested the knowing salesman; "everybody reads his." That's just it. They like our style of advertising and our style of doing business. They like our style of hats and up-to-date neckwear, too. We also have nice, warm underwear for these "breezy times." Prices are low as the lowest, quality considered. We give you heavy, well made underwear at 50c; good wool mixtures, 75c; all-wool goods in ribs and flat goods at \$1; finer goods at \$1.25; still better grades at \$1.50; then they run up to \$3 in wools and \$3 and \$4 in silk and wools and \$6 and \$7.50 in pure silks. We claim to carry the largest stock of underwear and quote the lowest prices, and best of all, there's not a doubtful piece of goods in our store.

# EIGHTH WARD RALLY.

JOHN DRAIN REPLIES TO SOME OF HIS CRITICS.

A Record of Businesslike Conduct. Fred Eaton Warns the People Against Boudage to a Corporation, Like San Francisco's Slavery to Spring Valley.

John Drain, nominee for Superintendent of Streets, made a telling rejoinder to slanderous attacks made upon him by political enemies at the Republican rally held last evening by the Brotherhood of Locomotive Engineers, North Main and Soto streets.

The hall was crowded with voters gathered to hear the addresses made by Fred Eaton, Republican candidate for Mayor, and the other men on the municipal ticket, and to enjoy the music and refreshments provided.

Drain's satisfactory ventilation of the petty assault upon his reputation was listened to with close attention.

"Two years ago," said Mr. Drain, "when I was first nominated for Superintendent of Streets I was made the target of all sorts of abuse. I am told the vile stories and mud-slinging, this crowd beats them all. I want to say right now to all my friends, don't throw any mud at me. I can win this tight hands down without it. Attempts to dig up scandals in my office have failed because there weren't any scandals there."

A story has been circulated that I charge men to hold their jobs. I will give \$100 to any man now in the employ of the city who can show me a man to whom he ever has been discharged, employed not excepted, who will make an affidavit and put it on my desk that he has taken a cent.

"Another story that they have been trying to get the papers to print is that the contractors have to pay to get their warrants. Many people don't understand the street law. When a contractor finishes a piece of work he files in the office of the Superintendent of Streets a map showing the assessment district. The day, hour and minute that the map is placed on file is recorded. These maps are filed as they come in. One by one the assessment clerk has charge of these records and does the work in connection with them in the order of the time of their filing. When a job is completed the contractor is generally in a hurry to get his pay. Sometimes the assessment clerk has a lot of work to do before he gets to the individual contractor's work. I ask my men to work only eight hours a day, but if the assessment clerk likes, as an accommodation to the contractors, he is permitted to work overtime on nights and Sundays. In such cases the contractor sometimes gives the assessment clerk \$5 or \$10.

"George Rhinechild was here to pay to get his warrant. He had a job on Pasadena avenue. There was a protest against it which was denied by the Council. It was a \$12,000 contract. Rhinechild was anxious to get his pay promptly because he was paying heavy interest on borrowed money. My assessment clerk told him to wait two weeks to get his warrant out for him. Rhinechild gave him \$10 and asked for a receipt, which the clerk gave him. When the receipt started down the stairs, waying the receipt in the air. He met me and told me that he was a receipt which proved that he had to pay \$10 to get his warrant out of my office.

"Now, that was a \$12,000 contract. If I'm going to be a petty larcenist, I won't be calculating this story and saying I got some of the \$10. If I were going to steal at all, I'd be going to steal \$10 out of a \$12,000 contract. The fight which is being waged against me is not being fought in the clearing. It is being fought in the streets."

Mr. Drain traced his experience in the office of Superintendent of Streets. "My record," he said, "is before you. I am a stranger to you. I don't pretend to tell you that I have made no mistakes—no man is infallible. You must judge me by what I am, not by what I say for the place. You can see something as to that when you compare the present condition of the streets with what it was two years ago and remember that I have had only one man to eight miles of street and one team to every thirty miles.

"Many people have been disappointed because I couldn't give them jobs. The Superintendent of Streets can't put men on just when he chooses; only the Council has that power. He can discharge them, and that is all."

"I believe you all know how I stand on the labor question. I am a street-paver by trade. I have worked thousands of men, and I have never asked a man to work for less than \$2 a day. I don't believe in cheap labor. No American citizen can properly support his family for less than that."

"I have made no promises of positions to anyone. I have only made all manner of promises. If any candidate for office goes around shoveling promises, beware. He does it only to get votes. I have seen other people whose support he wants and to whom he will make promises, and there are so many in the end that he can never deliver the goods. Be cautious about doing business with such a candidate."

# A Pill for the Ill.

"They'll do you good," a physician said in giving some pills to his patient, a woman who had suffered for months from diseases which baffled skillful treatment. His words proved true. The woman rejoices.

The hurry and bustle of the housewife is extremely wearing upon the delicate organism of womanhood.

Her intense earnestness in whatever she undertakes, tempts her constantly to go beyond her strength.

Mrs. L. E. Browning, of Pueblo, Colo., was one who did this.

"Eight years ago," said she, "my husband died and I was left with three children to care for."

"The burdens of life fell heavily upon me, but I determined to make the best of it. I succeeded in my undertakings for a livelihood, but in doing so overtaxed myself, and undermined my health."

"I was very ill about two years ago with blood poisoning, caused by an abscess that had not received proper treatment."

"The disease settled in my throat for a time, causing intense agony."

"Then inflammatory rheumatism set in. For four months and a half I was a prisoner in my room, most of the time confined to my bed."

"My hands were swollen so that I could not feed myself, and the swelling in my feet and ankles would have made walking impossible if I had been strong enough."

"One day, after considerable treatment, my physician brought me a box of pills."

"You need a tonic," he said, "and something that will act at once, and this is the best medicine for that purpose."

"The pills I obtained in surprise as he opened the box and showed them."

"Yes," he replied, "these are Dr. Williams' Pink Pills for Pale People, but you need not be alarmed, they are not physic, and my word for it, they'll do you good."

"Before I had been taking them a week I noticed a great improvement in my condition. Soon my rheumatism was gone."

"I grew stronger each day and now am in the best of health."

"I consider Dr. Williams' Pink Pills for Pale People, the best tonic."

"A friend not long ago was telling me of her mother who is at a critical period in her life."

"She was subject to terrible fainting spells, and the entire family would work over her."

"Dr. Williams' Pink Pills have not only stopped the fainting spells, but given her so much strength that she is able to take up life's duties again."

"To more highly endorse her words, Mrs. Browning made affidavit before George W. Gill, Notary Public."

All diseases arising from an impoverished condition of the blood, and most all come from that, are cured by Dr. Williams' Pink Pills for Pale People."

They act directly upon the blood. Building it up with lacking constituents; it becomes rich and red, the various organs are nourished and stimulated to activity in performing their functions, and thus disease is eliminated from the system."

These pills are sold everywhere, the sale being enormous.

## WATER ARBITRATION.

SUPERINTENDENT MULHOLLAND TESTIFIES ANOTHER DAY.

City Attorney Dunn Gathering in Data to Enable the Arbitrators to Set a Value on the Improvements Made by the Water Company.

The second day's proceedings before the water arbitrators was as dreary as its predecessor, and yet a large amount of data was acquired touching the water plant. As before, City Attorney Dunn and Superintendent Mulholland of the water company have affairs practically their own hands. The latter was on the stand throughout the two sessions, and was pitted with countless questions by the attorney, which indicated that the later had been making an expert of himself on pipe lines and the methods of laying them out.

The stipulations which were agreed to Thursday evening, and a digest of which was published by The Times, were presented at the opening of the morning session, immediately after which Mr. Mulholland was again called to the stand.

The afternoon session opened at 2 o'clock and the first questions disclosed the fact that there was some difficulty in ascertaining the age of some of the pipes in use, as in a number of cases the pipes had been taken up and replaced with new ones, or the old ones had been used in other places. This complicated matters considerably.

Mr. Mulholland said that he considered the age of the pipes of less significance in fixing their value than the condition of the soil in which they had been placed. If in a clay soil, which tends to retain power, or if there was a quantity of alkali in the soil, the pipes would depreciate more rapidly than in dry soil.

It was agreed that Mr. Mulholland would endeavor to ascertain more fully the age of the pipes, and the testimony proceeded in this manner.

About the most interesting point developed was the cost of making connections with buildings. Mr. Mulholland testified that half-inch service connections cost the water company, on an average, about \$8, of which \$3.50 is for labor and \$4.50 for material.

The cost of making connections with buildings, Mr. Mulholland testified that half-inch service connections cost the water company, on an average, about \$8, of which \$3.50 is for labor and \$4.50 for material.

He further testified that in all cases the company had been paid for these connections. The importance of this testimony was not brought out, but in view of the stipulations between the attorneys, it is interesting. The water company and the city have not been able to agree upon the matter of the connections, the company claiming that it is entitled to pay for these service connections from the city, while the latter maintains that the water company is not entitled to pay for that which they have already been paid for by the individual consumers.

Attorney Dunn closed his testimony with an inquiry into the matter of ditching, questioning Mr. Mulholland regarding the nature of the flumes, ditches, tunnels, pipe lines, etc., which constitute what is generally known as the power ditch. The details related to the amount of steel pipe, cement, lumber, etc., consumed, the nature of the soil and the work required in construction.

At the close of the afternoon session Mr. Dunn said that he expected to release Mr. Mulholland from the witness stand at an early hour tomorrow, though he may be retained for some time by the attorneys for the water company.

## DASHED TO DEATH.

ALFRED I. TOWNSEND'S FALL FROM A WINDMILL TANK.

One of the Ladder Steps Gave Way and the Man Was Precipitated to Thirty Feet to the Ground—Died Without Regaining Consciousness.

Alfred I. Townsend, of Townsend Bros., the patent solicitors, was killed about 6 o'clock last night, at his home, No. 1340 West Washington street, by falling from the tank of his windmill to the ground below, a distance of thirty feet. He had ascended the ladder to examine the tank, when one of the ladder steps gave way. He struck on his head and right shoulder, fracturing the skull, the right shoulder and right wrist. The unfortunate man was discovered by his brother, F. M. Townsend. He was carried into the house, and Dr. Harrison was at once summoned, but the injured man was beyond human aid. He died about 10 o'clock, without regaining consciousness.

The remains were removed to the undertaking parlors of Breese Bros. Deceased was 35 years of age. He leaves a widow and two children. Some years ago, Mr. Townsend was in partnership with Henry T. Hazard, but of late years has been one of the Townsend Bros. One of the brothers, J. R. Townsend, conducts the Eastern end of the business, while deceased and F. M. Townsend, who resides at No. 1325 West Twentieth street, conducted the business in this city.

Townsend has gained considerable note as a poet, his productions being familiar throughout this part of the State.

Gen. McReynolds Dead. (Mich.) Nov. 25.—Gen. Andrew T. McReynolds, who was the first and only person commissioned by President Lincoln direct to raise a regiment during the rebellion, died today, aged 81. Deceased served in the Mexican war and was promoted to be major for gallantry. He served as United States District Attorney and rendered distinguished service in the civil war. He was knighted and was to be the oldest Knight Templar in the United States. He was always a Democrat.

## RAILROAD RECORD.

## TWO SEVERE ACCIDENTS.

## Wisconsin Party Delayed—Damage to Orange—Notes.

The party of Wisconsin people who are coming to the Coast to participate in christening the battleship called after that State and to be launched today at San Francisco, will not leave San Francisco tomorrow as originally intended, but will leave there Tuesday and arrive here at 7:30 Wednesday.

The wind of the last forty-eight hours has been quite severe in the interior. The railroads are experiencing some difficulty owing to their wires being down in numerous places.

Yesterday morning at 3:30 o'clock as a freight train on the Santa Fe was passing Summit in Cajon Pass north of San Bernardino, a man named Joseph N. Griffin, No. 623 Baker street, San Francisco, who is a young fellow of about 20 years of age, was brought into San Bernardino for surgical treatment.

Yesterday morning at 5:50 o'clock, while a freight train was being handled at Rivera a door fell on the brakeman, C. E. Schmidt, jamming him against the door with some violence. His injuries are not thought to be serious.

F. W. Price, formerly assistant ticket agent of the Santa Fe in this city, but now city ticket agent at San Francisco, is in the city, being warmly greeted by his numerous friends. Mr. Price has been gone about a year.

S. B. Hyman, general manager of the Terminal, is home from San Francisco. H. F. Wendt, city agent of the Terminal, has moved his office to No. 214 South Spring.

Gail Borden of the Terminal has been to San Diego and other points south, posting advertising matter of the Redondo Railroad and Hotel.

The railroads are advised of a good deal of damage done to cranes by the wind.

## STATE TREASURY INVADDED.

Gov. Leedy's Private Deposit Box Looted—There Are Others.

[ASSOCIATED PRESS DAY REPORT.]

TOPEKA (Kan.), Nov. 25.—The discovery has been made that the private deposit boxes of the State Treasury have been looted within the last week. The discovery was first made by Gov. Leedy Wednesday evening. The Governor went to his box to get some money before he went home for Thanksgiving and he found his box empty. He had \$100 in it.

This morning Mrs. J. M. Herrington, widow of the State House guide, who died last night, went to the treasury and asked to get the money from her husband's box. It was found to be empty. Herrington had told Assistant Treasurer Williams that he had \$500 in the box, and W. H. Barber, Mrs. Herrington's stepson, lost \$180 from his box. An investigation showed that the locks on as many as six of the boxes are alike, and one key will unlock several of them.

## Friday Morning Club.

There was a large attendance at the Friday Morning Club meeting yesterday. The subject for discussion was "Some National Issues," presented in an excellent paper by Mrs. Kate Tunper Galpin. Mrs. Galpin spoke of the national Thanksgiving day just passed. Other points discussed in the paper were the disposal of the Philippine Islands, the construction of the Nicaragua Canal, and the increase of trade resulting from it; the possibility of the Pacific Coast as the future course of trade and civilization, the proposed union of Anglo-Saxon nations and the czar's recent commission. A general discussion followed.

## BURGLARS AT WORK.

THEY SEEM TO HAVE A PENCHANT FOR MINISTERS.

Rev. Warren F. Day and Rev. G. Runkel Are the Victims—The News Suppressed by the Police Censor, but It Leaked Out—No Clues.

Although the police censor in his wisdom has not seen fit to divulge the fact that Los Angeles is the recipient just now of favors at the hands of the festive burglar, nevertheless the knights of the jenny "have come."

Whether they are the natural result of visitations of the races and circus, or are merely migrating southward in search of winter quarters, is immaterial; they are with us, and rumors of their presence in different sections of the city have been heard quite frequently of late. They were only rumors, though, and the police, of course, simply looked wide and said nothing.

The latest work in this line was the burglarizing of the house of Rev. Warren F. Day, pastor of the First Presbyterian Church, who resides at No. 915 South Hill street. On Wednesday evening, while Rev. and Mrs. Day were at prayer meeting, burglars effected an entrance into the house by breaking the glass pane in the front door and then unlocking it from the inside. They first tried the back door, but were unsuccessful.

After getting into the house, the burglars systematically ransacked drawers and turning the pockets of clothes inside out. They carried off a valuable diamond ring belonging to Mrs. Day, a handsome pair of which had been brought from India, entitled "Taj Mahal," and other articles to the value of \$100. The detectives have as yet found no trace of the burglars or their booty. This is the third time robbers have successfully entered Rev. Day's residence. Thence, they attempted to break in on the work of the Rev. G. Runkel, who resides at No. 351 South Flower street, pastor of the German Lutheran Church, is also a recent victim. Last Sunday night, while the family was at church, burglars succeeded in entering his house by breaking the glass in the door leading to the study. They were rewarded by securing \$8 in cash. This makes the third time Rev. Runkel's house has been entered. The police detectives have been at work on this case, also, but as yet have nothing to report.

From the similarity of the two latest larcenies it seems to have been executed by the same men.

## RETURNING TO THEIR HOMES.

Four Convalescent Members of the Seventh Leave San Francisco.

The Red Cross Society here received a message yesterday from Miss Anna Lynn, in which she stated that she would leave San Francisco yesterday afternoon for this city, accompanied by four members of the Seventh Regiment, who have been confined in the hospital, suffering with typhoid fever. Miss Lynn was sent north two weeks ago by the society to look after the men, one of whom, Lee Lynn, Co. H, is her cousin. Two of the others are Hugh Broaden, Co. D, and Martin Allen, Co. L. The name of the fourth man is not mentioned in the message. The party will reach Los Angeles this afternoon and the men will be sent to their homes.

The headquarters of the Red Cross Society will on December 1 be removed from near the corner of Third and Broadway to one of the extensions in the new Broadway building at First and Broadway.

Mrs. Griffith, president of the local branch of the society, who has been very seriously ill at her home for several weeks, is now considered out of danger and is rapidly recovering.
